Rules of Research & Development Grant for Chair Professor

1. Objective

The Research & Development Grant for Chair Professor (CPG) of the University of Macau (UM) is an annual grant made available only to the appointed “Distinguished Professors” and “Chair Professors”, aiming to provide financial support to promote and develop research related activities corresponding to their academic expertise.

2. Funding Amount and Allocation

The CPG is allotted as an annual grant, therefore, no budget could be carried forward. All research proposals should be endorsed by the Vice Rector (Research) while funding administration will be followed-up by the Research and Development Administration Office (R&DAO). In general, the CPG amounts are the following:

- MOP350k – for Distinguished Professor
- MOP500k – for Chair Professor

3. Report

An annual progress report should be submitted in order to secure the subsequent year funding allotment. In case of contract end, final report to conclude the output and achievement for the entire granting period will be required.

4. Supported Items

In general, CPG can flexibly support the items in the following categories:

- a) Personnel cost – UM students, fixed-term research staff and short-term visiting scholars, etc.
- b) Supplies & Materials – including equipment, surveys, professional services and reference materials, etc.
- c) Research & Conference Trips – including registration fee, transportation and accommodation. Involved UM researchers (i.e. principal investigators, fixed-term research staff, UM postgraduate students, etc.) can be supported.
- d) Others – including specific needs, e.g. field trips for data collection, etc.

5. Other Provisions

- a) The University reserves the right not to consider funding to any applications and to terminate support to any approved applications.
- b) The University owns the rights of all funded results in terms of publications, patents, trademarks, etc.

- c) Grant recipients should refer to the Guidelines of Research & Development Grant for Chair Professor for procedural and execution compliance.
