Daring Wings

Who has never dreamed about flying? Well, grab your pair of wings and get ready to touch the sky with us! *Flights* is a contemporary dance show produced by Spanish company Aracaladanza to spark the senses of young children and their families.
Inspired by the amazing legacy of Leonardo da Vinci, the piece challenges us to wonder at humans' quest to conquer the skies. Emotionally driven, bewitching, comic and astonishingly inventive, *Flights* will take us on a funning ride where everything is possible, as long as we, kids and grownups, never stop dreaming!
