**關於工作人員接種新冠病毒疫苗及接受新冠病毒核酸檢測的指引**  
**Guideline on COVID-19 Vaccination and Nucleic Acid Testing for Staff**

This guideline shall be executed by relevant individuals and public/private entities under the supervision of their supervisory entities. Under article 3 (Obligation to cooperate) of Law no. 2/2004 – “Law on the Prevention, Control and Treatment of Infectious Diseases”, to achieve the target of prevention, control and treatment of infectious diseases, individuals and public/private entities are obligated to closely cooperate with their supervisory entities, and comply with the orders and guidelines issued by their supervisory entities according to the law. This guideline is without prejudice to any more concrete or stringent orders/guidelines set out by relevant supervisory entities in light of the actual circumstances.

In the face of an increasing austere COVID-19 situation worldwide, and vaccination against COVID-19 may effectively reduce infection and transmission, in accordance with stipulations in article 5 of Law no. 2/2004 - “Law on Prevention, Control and Treatment of Infectious Diseases”, the Health Bureau issues the following guideline:

To prevent the spread of COVID-19 in workplaces, all staff are responsible to get vaccinated against COVID-19. Staff who must be in contact with service users during work, or share a confined workplace with others could easily transmit the virus to others if being infected. Staff who have not been vaccinated should undergo nucleic acid test at least once every 7 days. Those who have a recognized “medical certificate of unsuitability for COVID-19 vaccination” can book a free nucleic acid test via the Health Bureau’s webpage as follows: <https://app.ssm.gov.mo/certifiedunvaccinaternabook>

To take forward the implementation of the guideline, all public and private entities shall, depending on their practical situation, make corresponding arrangements for their staff or staff of their regulated entities, and request for professional opinion from the Novel Coronavirus Response and Coordination Centre when necessary.
